

Lumo Line

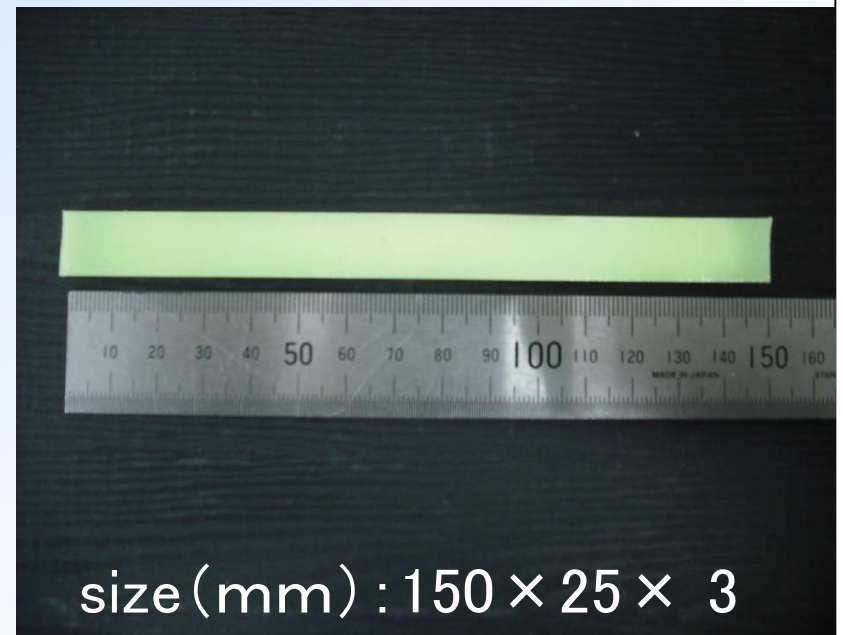

High photo luminescent line for outdoors / Anyplace

Structure of Lumo Line

Lumo line is a high class photo luminescent line equipment for safety in the night dark circumstances, and can be applied to pavements, stairs, and so on.

Our supply career of this product to Korea is more than 3,000 lines from 2years ago.

size (mm) : 150 × 25 × 3

Effect of Lumo Line

Lumo Line brightness test results

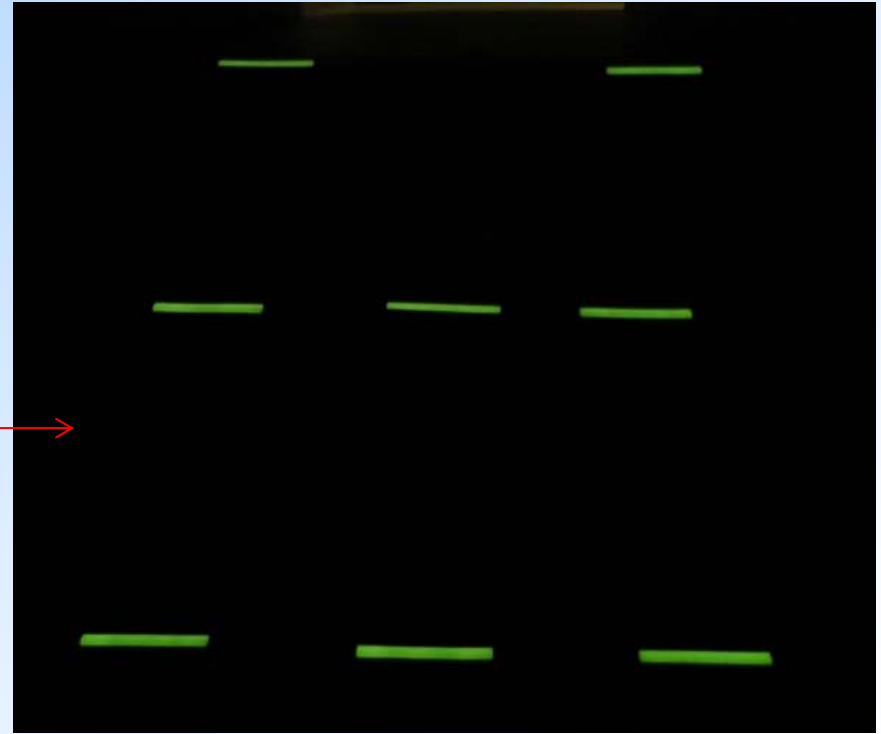

step1 : Lumo line pieces were placed in a dark room for 24hours.

step2 : These were illuminated by D65 lights for 20minutes.

step3 : Measuring luminance time for these test pieces were 2, 5, 10, 20, 30, 60minutes.

past time (minutes)	2	5	10	20	30	60	
Lumo Line Green	1711	1050	609	345	241	115	(mcd/m ²)
